LOCUM PEDIATRIC ONCOLOGIST-HEMATOLOGIST

The Department of Pediatric Oncology-Hematology-BMT at CancerCare Manitoba and the Department of Pediatrics and Child Health, Max Rady College of Medicine, University of Manitoba, invite applications for the position of **Locum Pediatric Oncologist-Hematologist**. This position would be for a 12-month period beginning January 4, 2027 and be associated with a clinical teaching NIL Appointment within the Department of Pediatrics and Child Health. Expertise in Pediatric Bone Marrow Transplant is preferred however not required for the position.

The Department of Pediatric Oncology and Hematology, CancerCare Manitoba consists of ten faculty members with active clinical and research programs in pediatric oncology, blood and marrow transplant, hematology, hemostasis and thrombosis. It is the sole Pediatric Oncology-Hematology Program seeing patients from across the province. Our program is an active contributor to Children's Oncology Group and other collaborative clinical group trials, has an active blood and marrow transplant program, a Royal College accredited subspecialty training program, and is well supported by all pediatric subspecialties.

Qualifications: Candidates must be eligible for registration with the College of Physicians and Surgeons of Manitoba. Certification (or eligibility) from the Royal College of Physician and Surgeons of Canada in Pediatrics and Pediatric Hematology Oncology or equivalent is required. The successful candidate will be expected to provide high quality in-patient and out-patient care to patients with malignant and hematologic disorders as part of a multidisciplinary team at the Children's Hospital, Health Science Centre and CancerCare Manitoba.

A CV, three references should be sent to:
